

Information about the building work at St Paul's

Services at St Paul's

The upcoming interior and exterior accessibility building work at St Paul's will begin on Tuesday 1st September and take approximately 12 weeks. During this time, we will not be able to use or access the church building. The Liturgy, worship and all other church events will take place in the Parish Centre. All services will take place at the same time except Sunday evening services that will start at 4pm. We will move into the Parish Centre from Sunday 30th August, therefore, the last Sunday in the church building will be Sunday 23rd August. The last Wednesday service will be 26th August.

Sunday services *in the Parish Centre*: 8.30am 10am 4pm
Wednesday and any midweek services *in the Parish Centre*: 10am
Monday to Thursday Morning Prayer *in the Parish Centre*: 8.30am
Saturday Morning Prayer *in the Parish Centre*: 9.30am

Access to the church

The main entrance into the church will be locked and out of use from Thursday 27th August; we ask that all church key holders do NOT enter the church building for any reason during the building work. The Parish Centre's main entrance will be the entrance for all our services and events, follow the path around the West wall of the Church into the Parish Centre. Please, see the plans and drawings of the building work at the back of church and in the Parish Centre. If anyone has any questions or concerns please talk to the Vicar or Churchwardens. Many thanks.

Pause of the Livestreaming on the YouTube channel.

Sadly, we will have to pause the livestreaming of the Church's services during the time the building work is taking place in church. Apologies for the inconvenience. We know there is a good number of people following online so we would like to stay in touch and we will be back livestreaming the services as soon as we can. Thank you very much.

Please keep this for information and refer to the fortnightly newsletters for any further details about services and events during the building work.
